

the inward journey

with special guest:
world-class storyteller, Rafe Martin

7:30-9:30pm

\$15

"..Far from being quaint tales for children only—the Jataka tales tell us the ways of bodhisattvas, those with boundless hearts dedicated to the happiness & enlightenment of all beings..."

"... values & ways that are so deeply human, yet terribly endangered by our foolish habits of denial, selfish individualism & the seductive power of technology: stories that stand against that by standing for our true nature—wild, compassionate, funny, sad, whole."

"a rich potion of words & images casting its spell over & through all those present, bringing forth now laughter, now a breathless stillness & waking up something long forgotten, something timeless and full of wonder."
